Brand: HomingGame Factory | **Design:** 36 Clips High-Capacity | **Usage:** Commercial Arcade

Product Overview

The **HomingGame Factory 36 Clip Prize Game Machine** is a commercial coin-operated arcade machine engineered for maximum profitability in limited space. Featuring **36 independent prize clips**, this model allows

operators to display more prizes simultaneously, increasing visual attraction, player choice, and repeat play frequency. Compared with traditional 12-clip or 24-clip machines, the 36-clip structure delivers significantly higher ROI per square meter.

This machine supports a wide range of prizes including keychains, mini toys, blind box items, capsule gifts, collectibles, and promotional merchandise. The compact cabinet design enables flexible placement near entrances, cashier areas, walkways, and high-traffic zones in arcades, shopping malls, cinemas, family entertainment centers, and retail stores.

36 Clips High-Profit Design Advantages

- 36 visible prizes increase impulse play and dwell time
- Higher prize variety improves repeat play rate
- Reduced refill frequency lowers labor cost
- Stable payout control ensures long-term income
- Compact footprint maximizes earning potential per location

Cabinet Structure & Build Quality

Manufactured by **HomingGame Factory**, the cabinet is constructed with reinforced steel frame and high-transparency acrylic panels for durability and excellent prize visibility. The internal control system is designed for continuous commercial operation, ensuring smooth clip rotation, stable coin acceptance, and reliable long-term performance.

Technical Parameters (Alibaba Specification Sheet)
